SANIJET.
PIPELESS HYDROTHERAPY

For: SANIJET

FOR IMMEDIATE RELEASE

PIPELESS HELPS PROPERTY PROFITS BUBBLE UP

- SANIJET's Pipeless™ Spa Baths add value and luxury to hotels and resorts nationwide, and that's good for business -

DALLAS – Staying ahead in the hotel and resort industry takes dedication to guest satisfaction, profitable property and program investments, and innovative amenities that leave guests with a positive, lasting impression. Top vacation properties such as the Salish Lodge & Spa in Snoqualmie, Washington, the Outrigger Waikiki on Waikiki Beach, Hawaii, and the Shade Hotel in Manhattan Beach, California, are investing in a profit-boosting amenity that delights both guests and owners – SANIJET's Pipeless™ Spa Baths.

Guests are being treated to in-room spa-quality hydrotherapy, complete with personal massage settings, targeted hydrotherapy jets and soothing chromotherapy lighting, and hotel and resort owners are reaping the benefits. SANIJET's Pipeless™ Baths' efficient, safe and quiet operation saves time, money and water.

Knowledgeable guests are shying away from unsanitary traditional piped whirlpools and air baths. Representing the first industry advancement in nearly 30 years, SANIJET's Pipeless™ Spa Baths eliminate the problem pipes found in traditional piped whirlpools and air baths, which allow harmful deposits (sloughed dead skin, body and bath oils, and soap scum) to collect, creating an ideal breeding ground for infectious bacteria. SANIJET's Pipeless™ technology prevents bacteria and other microorganisms from building up within the system by eliminating these hidden inaccessible pipes and surfaces where they collect.

Spa-quality bathing starts with guaranteed safety, and means not having to worry about the additional typical piped whirlpool and air bath concerns: noise and maintenance. The noisy pumps and blowers of traditional whirlpool baths regularly dissuade hotel and resort owners from installing in-room spa baths as they attempt to minimize guest disturbance and maintain privacy. SANIJET's Pipeless™ baths are

whisper quiet, producing only half the noise of piped systems, and do not transfer noise from room to room. With SANIJET Pipeless™ Spa Baths, cleaning and maintenance is quick and effective. The massage jets can be removed for proper disinfection. SANIJET is the only hydrotherapy equipment manufacturer to make bathing safety its highest priority, and was awarded certification for disinfection from NSF International (formerly National Sanitation Foundation).

SANIJET's unique water-saving Pipeless™ technology requires less than 1 gallon of water for cleaning, compared to 80 gallons for traditional piped systems. This represents a 98% reduction in water used for cleaning, a significant savings for properties of all sizes. Additionally, with reduced labor time and fewer chemicals required for cleaning, SANIJET's Pipeless Spa Baths are good for both the bottom line and the environment.

Increasingly, innovative amenities are improving guest satisfaction and property profits at leading destinations worldwide. SANIJET's Pipeless™ Spa Baths offer the unique combination of luxury, safety, and hygiene with environmentally sound benefits. To ensure maximum profitability and guest satisfaction for hotels and resorts, SANIJET works directly with properties to deliver superior service and support from their Dallas, Texas headquarters.

In addition to the Pipeless™ Spa Bath Collection, SANIJET offers the Pipeless™ Reflexology Pedicure Bath Collection, the Mirai Pipeless™ Pedicure Spa, and the Pipeless™ Portable Foot Bath.

###

ABOUT SANIJET CORPORATION

Pure, clean and safe, SANIJET's revolutionary Pipeless™ hydrotherapy systems are free from invisible bacteria that plague traditional piped whirlpool and pedicure baths. SANIJET's unparalleled technology and independently-certified cleaning procedure provide the ultimate in safety and spa-quality, ultra-quiet operation and the added freedom to use spa products. SANIJET's unique design delivers an authentic spa-quality experience, the way bathing was meant to be. Preferred by leading destination resorts and spas, hotels, salons and hospitals worldwide, SANIJET offers a full suite of Pipeless™ Spa Baths and Pipeless™ Pedicure Systems. Headquartered in Dallas, Texas, SANIJET works directly with customers to deliver superior service and support ensuring complete customer satisfaction.
