SANIJET®
PIPELESS HYDROTHERAPY

For: SANIJET

FOR IMMEDIATE RELEASE

LUXURY, SAFETY, AND...REFLEXOLOGY:
SANIJET® UNVEILS PIPELESS™ REFLEXOLOGY PEDICURE BATH COLLECTION

- SANIJET's new collection adds reflexology therapy to Pipeless Pedicure Baths' impeccable hygienic standards -

SANIJET's Pipeless Reflexology Pedicure Bath Collection delivers the therapeutic benefits of reflexology with the trusted safety and ultimate luxury that have made SANIJET a preferred hydrotherapy choice of leading destination resorts, spas and salons worldwide.

SANIJET's Pipeless Reflexology Collection stimulates key points on the feet to release tension, restore balance, and improve energy flow and wellness. Inspired by natural stone foot paths in Asia, SANIJET's newest designs are the only pedicure baths perfectly arched to contour the feet. The innovative Reflexology Collection features five stunning styles, and sets a new standard for custom built-in pedicure banquettes and modular pedicure stations, providing spas and salons added design freedom and options.

Complete with upgraded luxury amenities, the Reflexology Collection features reflexology-inspired stone design basins, soothing chromatherapy lighting, a padded foot rest with durable and soft Ultraleather™, safe and quiet Pipeless hydrotherapy jets, and an easy to operate control panel. SANIJET's Pipeless technology is also ideal for treatments using bath additives, such as essential oils and thermal spring salts. In conventional whirlpool tubs, the use of additives and spa products are discouraged as they can significantly add to the accumulation of unsanitary bathing residue and harmful bacteria concealed in the tub pipes.

SANIJET Pipeless Reflexology Baths' revolutionary design gives you unmatched hydrotherapy and the assurance of clean, pure water with every pedicure. Each jet is self contained and installs directly into the basin wall, making cleaning and maintenance quick and easy. Driven by a quiet and efficient motor, the jets draw water in and propel it back out to create an invigorating and rejuvenating hydrotherapy experience. Unlike

-more-

traditional noisy pumps and blowers, Pipeless Baths make only half the noise of piped systems, for a soothing and relaxing pedicure experience.

Free from invisible bacteria that plague traditional pedicure baths, only SANIJET's unique Pipeless technology meets the demanding disinfection requirements of NSF International (formerly the National Sanitation Foundation) Protocol P182. In approximately five minutes, SANIJET's Pipeless Pedicure Baths can be thoroughly cleaned with a simple, effective disinfection protocol.

Pure, clean and quiet, SANIJET Pipeless™ Reflexology Pedicure Baths offer authentic luxurious hydrotherapy – the way bathing was meant to be. That's why leading spas such as The Spa at Mandarin Oriental, Canyon Ranch SpaClub at the Venetian, The Spa at Red Rock, The Spa at The Hotel Hershey, The Ritz-Carlton Spa Grande Lakes, and The Spa Coeur d'Alene choose SANIJET.

In addition to the Pipeless™ Reflexology Pedicure Bath Collection, SANIJET offers complete Pipeless™ Spa Baths, the Mirai Pipeless™ Pedicure Chair, and the Pipeless™ Portable Foot Bath.

###

ABOUT SANIJET CORPORATION

Pure, clean and safe, SANIJET's revolutionary Pipeless™ hydrotherapy systems are free from invisible bacteria that plague traditional piped whirlpool and pedicure baths. SANIJET's unparalleled technology and independently-certified cleaning procedure provide the ultimate in safety and spa-quality, ultra-quiet operation and the added freedom to use spa products.
